

Dear Members, Associates, Supporters, and Friends,

We are honored to let you know that **Prof Zoltán Matrái** and **Prof Güldeniz Karadeniz Çakmak** have joined the EUBREAST Network Scientific Board. Please help us welcome them to the team!

As many of you know, we are privileged to be part of the **OPBC/EUBREAST/Toolbox2** Project this year. Members/Associates who expressed interest should have received links to participate in the **First Delphi Round**. The Consensus Round will take place on **September 1, 2022, 13:00 - 17:00 CEST**. For more information, do not hesitate to contact us.

EUBREAST is also pleased to announce that **Patient #100** has been enrolled into the **EUBREAST-01 trial** and **Patient #2000** into the **AXSANA / EUBREAST 3 Study**. We are grateful to all who have participated in these Studies.

Additionally, **EUBREAST ETS** has been officially accepted into the Italian **RUNTS Registry**; this change in association status will enable us to benefit from many fiscal advantages and grow more quickly. A big thanks to the **Italian Effective Members** for making this happen.

Please remember to check our **website** or to follow us on **social media** for information about **webinars, upcoming association meetings, EUBREAST publications and more**.

To all **EUBREAST Members and Associates**: please fill out our **Online Membership Application Form**, if you have not already done so. It's important for us to have your updated details and data privacy consent on file. Also, feel free to share the link around your networks:
<https://eubreast.com/?Membership>.

We look forward to hearing from you and thank you again for being a part of our Network.

Prof Thorsten Kuehn, Chairman EUBREAST e.V.

Dr. Oreste Gentilini, Chairman EUBREAST ETS

BRIEF QUESTIONNAIRE: TAD

Dr Michaelis Kontos, a EUBREAST member, would appreciate your support in filling out a brief (5-minute long) questionnaire regarding knowledge gaps in TAD,

[Please click here](#) to participate.

EUBREAST CLINICAL TRIALS

There are currently three active EUBREAST clinical trials as well as two new studies (MELODY and SerMA) that will launching in 2022. To [learn more about our ongoing Studies, please click here](#). We also welcome your [Study proposals for review](#).

FOR YOUR VIEWING PLEASURE

- Please check out all our webinars, including our most recent, "Oxford Debate: IS BCT associated with a survival benefit when compared to Mastectomy", that had over 100 active viewers: <https://eubreast.com/?Events#webinar122>.
- Upcoming webinars to be announced soon:
 - Joint webinar with SFCO
 - Joint webinar with SENATURK

More details to follow!

The EUBREAST Network is committed to researching less extensive approaches to breast cancer surgery in order to improve the quality of life of affected patients.
